PROFILE SUMMARY

Innovative and detail-oriented Full Stack Developer with expertise in designing, developing, and deploying high-performance web and mobile applications. Proficient in React, React Native, Flutter, Node.js, Java, PHP, Python, MongoDB, MySQL, and Firebase, with a strong background in software development, UI/UX design, and database management. Skilled in building scalable and efficient applications, integrating third-party APIs, and optimizing performance. Experienced in both front-end and back-end development, delivering user-friendly and feature-rich solutions. Passionate about problem-solving, competitive programming, and staying up to date with the latest technology trends.

WORK EXPERIENCE

Wolkite University ICT center and ICPC Team
2021 - 2024
Software Engineer and Compititive Programmer

Developed software projects using JavaScript and the MERN stack at the ICT incubation center. Competed in programming contests, improving problem-solving and coding skills. Worked in teams to build and test software, contributing to national ICPC success.

Information Network Security Administration of Ethiopia (INSA)
FEB - JULY 2023
Software Development Intern

Febubrary 2023 - July 2023
Completed four-month undergraduate intern program at Information Network Security Administration of Ethiopia (INSA) with MERN stack project development.

Cross Light Africa
SEP 2022 - PRESENT
Fullstack Developer

Working as a Full Stack Developer at Crosslight Africa, developing web and mobile applications using the MERN stack, Flutter, and Django. Responsible for designing, implementing, and optimizing scalable solutions. Collaborating with teams to build efficient and user-friendly applications.

Arkwood
JULY 2024 - PRESENT
React/React Native Developer

Develop and maintain React and React Native applications, enhancing performance and user experience. Collaborate with teams to deliver new features and ensured code quality through testing and Agile practices.
